Pediatric Education You Can Trust

aap.org/education

Department of Education Resource Guide

The Department of Education develops and presents continuing medical education programs in over 60 pediatric topic areas for Fellows and other pediatric health care professionals who provide care for infants, children, adolescents, and young adults.

MOC | CME | Professional Resources

American Academy of Pediatrics
DEDICATED TO THE HEALTH OF ALL CHILDREN™

Continuing Medical Education | LIVE CME ACTIVITIES

The Division of Continuing Medical Education (CME) is responsible for the development, implementation, and evaluation of live AAP CME activities. These activities include CME courses (subspecialty/section/council courses, Practical Pediatrics CME Courses and PREP® The Courses), and the National Conference & Exhibition.

Practical Pediatrics CME Courses

Designed for pediatricians, family physicians, nurse practitioners, physician assistants, nurses, and allied health professionals caring for children, Practical Pediatrics CME Courses feature nationally prominent faculty presenting topics that highlight current issues in pediatrics. Each course combines lectures, interactive seminars, and question-and answer sessions to allow you the opportunity to interact directly with faculty in solving the problems you encounter in everyday practice.

The American Academy of Pediatrics (AAP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

These activities have been approved for *AMA PRA Category 1 Credit™*.

PREP® TheCourse

PREP® The Course

An intensive review and update of pediatrics and a unique component of the American Academy of Pediatrics overall educational program. While the course content is based on the content specifications issued by the American Board of Pediatrics (ABP) for Maintenance of Certification™ (MOC), the course also features case-based sessions, hot topics, and visual diagnosis components related to the latest information on clinical practice.

Tempe, Arizona
March 8-12, 2014

Denver, Colorado
September 6-10, 2014

The Self-Assessment portion of each course has been approved for 10 points of ABP MOC Part 2 credit.

Subspecialty/Section CME Courses

Appropriate for the pediatric subspecialist or the general pediatrician with a particular interest in the topic.

PREP®:CAP

An Update of Child Abuse Pediatrics
Norfolk, Virginia | July 11-14, 2013

PREP®:ID

The Self-Assessment portion of this course has been approved for 10 points of ABP MOC Part 2 credit.

An Intensive Review and Update of Pediatric Infectious Diseases
Chicago, Illinois | July 22-27, 2013

Pediatric Hospital Medicine 2013: A Decade of Growth and Innovation

Pediatric Hospital Medicine
New Orleans, Louisiana | August 1-4, 2013

Neo PREP®

The Self-Assessment portion of this course has been approved for 10 points of ABP MOC Part 2 credit.

An Intensive Review and Update of Neonatal-Perinatal Medicine
San Diego, California | January 11-17, 2014

DB: PREP®

An Intensive Review and Update of Developmental-Behavioral Pediatrics
Atlanta, Georgia | January 29 - February 2, 2014

2014

Workshop on Perinatal Practice Strategies

Workshop on Perinatal Practice Strategies
Scottsdale, Arizona | April 4-6, 2014

PREP®:EM

An Intensive Review and Update of Pediatric Emergency Medicine
Washington, DC | August 2-6, 2014

Register online, view detailed course descriptions, or request a brochure by visiting www.pedialink.org/cmefinder or for more information, email cme@aap.org, or call 866/THE-AAP1 (866/843-2271).

These activities have been approved for AMA PRA Category 1 Credit®.

Continuing Medical Education | NATIONAL CONFERENCE

AAP National Conference & Exhibition

Features educational sessions in nearly 60 topic areas to suit a variation of learning styles. Home to the largest pediatric technical exhibit, the National Conference showcases the latest products and services, as well as AAP educational and professional resources and programs. From hot-topic plenary sessions to small interactive, hands-on workshops, this conference will offer you every opportunity to enhance your clinical skills and expand your appreciation of our wonderful profession. The AAP welcomes you to be an active part of what we hope will be an annual fall event—the AAP Experience!

Magical Moments

Plenary Highlights

Keynote Address: If Disney® Ran Your Practice (P1059)

Saturday, October 26 | 11:20AM
Fred Lee

Using Simulation to Improve Patient Outcomes and Optimize Healthcare Processes (P2071)

Sunday, October 27 | 11:50AM
Tore Laerdal, MSc

Keynote Address: The Century of the System (P3067)

Monday, October 28 | 11:50AM
Atul Gawande, MD

Christopherson Lecture: Addressing Newborn Survival Globally—How Can Pediatricians Contribute (P4044)

Tuesday, October 29 | 10:30AM
Zulfiqar Bhutta, MBBS, PhD, FAAP

Controversies in Pediatrics

Learn both sides of the Hottest issues in our new Point-Counterpoint sessions! Attendees will hear evidence related to each of these topics, better understand the pros and cons and get the option to vote at the end of the session.

- Preschoolers with ADHD: To Medicate or Not?
- Kung- fu PANDAS: Stealth Attacks of Streptococci?
- What's Wrong with Just One Bottle? Pros and Cons of Choosing to Supplement Breastfed Babies
- ECG Screening Prior to Competitive Sports: Should it be Mandatory in the US?

Don't miss out on these new and exciting sessions where you can learn both sides of the latest issues in pediatrics!

Life Support Programs

The Division of Life Support Programs works to advance science and research in pediatric life and create and collaborate on innovative and life-saving products that support diverse audiences in the first line of response.

The Neonatal Resuscitation Program® (NRP®)

NRP® is an educational program jointly sponsored with the American Heart Association (AHA). The course has been designed to teach an evidence-based approach to resuscitation of the newborn to hospital staff who care for newborns at the time of delivery, including physicians, nurses and respiratory therapists. Since the inception of the NRP in 1987, over 3 million individuals in the United States and abroad have been trained and the program has been translated into over 30 languages. The 6th Edition is based on simulation methodology, enhancing development of critical leadership, communication and team work skills.

To learn more about NRP, visit www.aap.org/nrp.

Helping Babies Breathe® (HBB®)

HBB® is a hands-on neonatal resuscitation program for resource-limited environments. It focuses on simple techniques like keeping the baby warm, rubbing the baby dry, and if necessary, suctioning the baby's mouth and correctly applying a resuscitator for bag-mask ventilation. The students will be using the educational materials and a newborn simulator, for scenario based simulations to practice essential skills of caring for healthy babies and assisting babies who do not breathe on their own.

To learn more about HBB, visit www.helpingbabiesbreathe.org.

APLS: The Pediatric Emergency Medicine Resource®

APLS is a continuing medical education program developed by the American Academy of Pediatrics (AAP) and the American College of Emergency Physicians (ACEP). APLS features an innovative modular curriculum designed to present the information physicians, nurses, and allied health professionals need to assess and care for critically ill and injured children during the first few hours in the emergency department or office-based setting.

To learn more about APLS, visit www.APLSonline.com.

Pediatric Education Prehospital Professionals® (PEPP®)

PEPP®, 3rd Edition is the most comprehensive source of information on emergency medical care for children available. Based on the most current medical information and best practices, PEPP, 3rd Edition covers the critical knowledge and skills needed to rapidly evaluate, stabilize, and transport the pediatric patient. PEPP offers students an engaging course that expands their knowledge of pediatric core concepts and promotes critical thinking through case-based learning, hands-on skill stations, live-action video, small group scenarios, and precourse online modules.

To learn more about PEPP, visit www.peppsite.com.

Pediatric First Aid for Caregivers and Teachers® (PedFACTs®)

The PedFACTs® course prepares caregivers and teachers to appropriately recognize and respond to the ill or injured child.

The participant manual is the core of the PedFACTs course with features that reinforce and expand on the essential information. Each emergency topic is divided into three sections:

- **What You Should Know:** Provides background information.
- **What You Should Look For:** Provides assessment information.
- **What You Should Do:** Provides first aid treatment information.

To learn more about PedFACTs, visit www.pedfactsonline.com.

First Aid for Families: A Parent's Guide to Safe and Healthy Kids

This guide provides immediate access to vital first aid information on a range of common childhood illnesses and emergencies. This essential home resource gives parents the confidence they need to provide timely and appropriate care.

Infant CPR Anytime®

A self-directed learning program trains lay persons the principles of CPR in less than 30 minutes. The kit includes a personal inflatable infant CPR-practice manikin.

Scholarly Journals and Professional Periodicals

AAP JOURNALS COLLECTION

The authoritative pediatrics information you can trust. With AAP Journals, your need for original research, concise commentary, clinical reviews and latest news is covered!

PEDIATRICS[®]

The official journal of the American Academy of Pediatrics and the world's leading pediatrics resource. Pediatrics is the most cited journal in the field and among the top 100 most-cited journals in all of science and medicine.

PediatricsinReview[®]

The highly popular journal features real-life cases, best practices, and clinical review articles. Articles are mapped to the American Board of Pediatrics (ABP) knowledge statements for Maintenance of Certification™ (MOC).*

NeoReviews[™]

This online-only neonatal/perinatal journal features clinical reviews, case discussions, basic science insights, and “on the horizon” pieces. Clinical articles are mapped to the ABP knowledge statements for MOC™.*

AAP GRAND ROUNDS[™]

Critical, evidence-based summaries of clinical content from nearly 100 journals. Each month, this literature review newsletter delivers relevant commentary and current insights into critical topics in pediatrics today.*

AAP News[™]

The official newsmagazine of the AAP and the trusted resource for timely vaccine updates, AAP Policy statement insights, and anticipatory guidance—the information busy professionals need to keep current.

HOSPITAL Pediatrics.

The first-ever scholarly journal for pediatric hospitalists delivers groundbreaking original research and evidence-based information that supports patient care, teaching, research, and leadership.

*These activities have been approved for *AMA PRA Category 1 Credit*™.

Here are just some of the tools included with your AAP Journal subscription:

My File Cabinet

- Save articles and searches for quick retrieval.
- Create, remove, and delete folders as your collection grows for improved organization.

My Email Alerts

- Build custom alerts using the “Alert me” functions in each article’s navigation menu, via My email Alerts.
- Track when a specific article or author is cited with “My Citation Alerts”.
- Create keyword, author and/or topic alerts using “My Keyword/Author Alerts”.

Cross-Journal Linking

- Access over 1,000 other journals using your AAP journal subscription.
- Use citation hyperlinks to identify and read articles citing the original work.

Free sample issues available! For details, visit <http://eweb.aap.org/journals>.

Scholarly Journals and Professional Periodicals | PREP®

PREParation is Everything. Assess where your pediatric knowledge is the strongest – and where you need to grow. Pinpoint the content areas that need your attention most.

PREP® AUDIO

Pediatrics Expertise – To Go

PREP® Audio is a “must hear” for anyone who wants to stay current and enjoy lifelong learning from pediatric experts. Exercise, commute, or simply relax while getting relevant information—built to go wherever you do. Don’t miss issues on:

- Child Health Disparities
- LGBTQ Youths
- Endocrine Disruptors
- PITANDS to PANDAS to PANS
- Neurology Problems in Babies and Toddlers
- Sexually Transmitted Infections
- And More!

Rates for 12 monthly issues delivered by Audio/Data Disc plus Online Access* are:

Non-Member Physician: \$295

AAP Member: \$247

In-Training/Allied Health: \$217

Order today at <http://eweb.aap.org/prepau>

*Online-only access also available.

Try it! Download two FREE CME issues (Immunizations and Best Care for the NICU Graduate) at www.prepaudio.org.

These activities have been approved for *AMA PRA Category 1 Credit™*.

E-Learning

The AAP Division of E-Learning delivers the most up-to-date and trusted pediatric-specific online courses, educational tools and resources that help pediatricians and other pediatric health care professionals improve their care of children.

PediaLink®

The AAP Online Learning Center

Meeting Your Learning Needs At EVERY Stage of Your Career

Whether you are a first-year resident or a pediatrician with decades of experience, PediaLink®, the AAP Online Learning Center, will expand your knowledge, improve your care, and manage all your learning activities. **Access is FREE with AAP membership.** Sign into PediaLink at www.pedialink.org with your AAP login and password and access customized features including:

Residents:

- Access free courses, teaching tips, basic procedure videos and more all available in the PediaLink Teaching and Learning Resource Center
- Document compliance of new ACGME milestones
- Access three years of PREP® Self-Assessment Questions
- Build individual learning plan(s) and submit to your program director or advisor, and view feedback online
- View career and fellowship information

 See what PediaLink can do for you.
Visit www.pedialink.org.

Fellowship Trainees:

- Access teaching tips, basic procedure videos and more all available for free in the PediaLink Teaching and Learning Resource Center
- Document scholarly activity projects and view feedback from your Scholarship Oversight Committee
- Create quality improvement projects and submit them for review and feedback

Program Directors:

- Monitor learning plans and learning objectives of residents and fellows as they progress through training
- Manage resident and fellowship program rosters and administration assignments
- Track and document scholarly activities, learning plans, written evaluations and more all in one place
- Track, document and submit reports proving resident compliance of new ACGME milestones

At Every Stage of Your Career:

- Learn how to teach what you know. From teaching tips to basic procedure videos, get the tools you need in the **PediaLink Teaching and Learning Resource Center** to become a better teacher, presenter, and mentor
- Track and manage your learning activities, and submit your transcript
- Choose from the largest selection of pediatric online continuing medical education (CME) courses, including courses free for AAP members

EQIPP

Helping You Improve Care for Children
Brought to you by PediaLink, the AAP Online Learning Center

Identify and Close Practice Gaps

EQIPP courses deliver vital tools, information and resources pediatric practices need to develop and implement efficient, effective policies and practices that result in better care, increased patient satisfaction, and knowledge that can be applied to other practice areas to realize lasting practice change. EQIPP courses also help satisfy Maintenance of Certification Part 4 requirements. New and updated EQIPP courses feature subsidized pricing and new online features. Learn more: www.eqipp.org

Members receive discounts on all courses. PediaLink also features weekly offers announced online at www.pedialink.org, and via facebook and twitter.

Workforce and Medical Education Policy

The Division of Workforce and Medical Education Policy guides the Academy in the advocacy and development of public policy related to the health care workforce and the education of physicians. Issues under the Division's purview include the funding of medical education, physician workforce regulation, scope of practice, diversity, retirement patterns, and physician reentry into practice.

For practical tools, information, and planning resources, visit www.physicianreentry.org.

The Physician Reentry into the Workforce Project

Physician reentry into clinical practice can be defined as returning to professional activity/clinical practice for which one has been trained, certified, or licensed after an extended period of time. The process of physician reentry involves more than the individual physician. State medical and osteopathic boards have a vested interest in the continued competency of the licensees they regulate as part of their ongoing obligation to protect the public. Likewise, patients and the public, better informed than ever, now demand more of their physicians. And employers are keen to demonstrate that their physicians are providing safe and efficacious care. As a result, maintaining and demonstrating clinical competencies are all components of the reentry process. It is therefore important for those who have left practice, or who are planning to do so, to engage in strategic career planning. The Physician Reentry into the Workforce Project encourages physicians to employ strategies that will enable them to maintain their practice skills and to engage in the practice of lifelong learning.

Employment Resource

Conventional wisdom says that if you do what you love, you'll never work a day in your life.

The Official AAP Resource for Pediatric Careers

If you're looking for a job in child and adolescent health care, look no further than PedJobsSM. It's the only career resource dedicated exclusively to pediatrics and its subspecialties. Whether you're a physician, nurse, nurse practitioner, physician assistant, or practice manager looking for a position, PedJobs is easy to use, and FREE to AAP members and non-members.

Sign up for your free job seeker account and start your search today! www.PedJobs.org
